As part of our Erasmus+ Project on Trauma Informed Care the partners are hosting an online Webinar on Trauma-Informed Care and Psychologically Informed Environments on the 19th of October 2020 at 10am.

Dr Philip Timms will chair the webinar with a keynote given by Dr Peter Cockersell.

The seminar will take about 2 hours and there will be a Q&A session open to all at the end.

Register for your place now
Places limited, closing date to register Thursday the 15th of October

Overview of Webinar
What are the principles of Trauma-Informed Care?
Applying the principles of TIC and PIE in Homeless Service?
What does Trauma-Informed Care mean for Staff and Service Users?
Examples of where it has been applied and what are the outcomes of Trauma-Informed Care?

Dr Philip Timms
Dr Philip Timms has worked as a Community Psychiatrist working with people experiencing homelessness for over 30 years.

Philip has researched the relationship between homelessness and people with mental health support needs.

He was part of the team that set up the first UK community mental health service for homeless people, has worked as a consultant psychiatrist with a mental health outreach team for homeless people in South London.

He is a board member of SMES Europa and a key support in Sophia’s successful Erasmus+ application.

Dr Peter Cockersell
Dr Peter Cockersell is a Psychotherapist, Trainer, and Organisational Consultant specialising in interventions with people experiencing homelessness and other forms of social exclusion, histories of compound trauma, and ‘complex needs’.

He is one of the co-authors of the UK national guidance on Psychologically Informed Environments, published in 2011 and is the Editor of Social Exclusion, Compound Trauma and Recovery Applying Psychology, Psychotherapy and PIE to Homelessness and Complex Needs.
